

# CRIMINAL JUSTICE (BS)

By teaching the fundamentals of criminal justice and critical and creative thinking skills, the Criminal Justice program is designed to endow students with the fundamental knowledge to move on to a four-year institution of higher learning or enter careers in one of the major components of the American or Tribal criminal justice systems – law enforcement, the courts, or corrections – or allied fields.

1. The student will critically assess theories of criminology, methods, or investigative techniques to analyze patterns of crimes and establish criminal intent and victimology.
2. The student will demonstrate an understanding of tribal, state, and federal jurisdictions.
3. The student will execute written materials at a level befitting government reporting.
4. The student will display the professional and ethical conduct expected in courtrooms and in criminal justice fieldwork.

Code	Title	Hours
<b>General Education Requirements</b>
